PROPOSED AMENDMENT AND revision of the Constitution of the State of Nevada, passed at the seventh session of the Legislature.

Resolved, by the Assembly, the Senate concurring, That the Constitution of the State of Nevada be amended as follows:

Amend Section one of Article IX of the Constitution of the State of Nevada so as to read as follows:

Section 1. The fiscal year shall commence on the first day of December in each year.

Passed January 14, 1875.

Resolved by the Assembly, the Senate concurring, That our history, as a State, has taught us the necessity of revising the Constitution; we therefore recommend the electors, at the next election for members of the Legislature, to vote for or against the calling of a Convention for the purpose of revising the Constitution of the State of Nevada.

Passed February 18, 1875.

I hereby certify the foregoing to be true copies from the original enrolled Resolutions on file in my office.

Witness my hand and the Great [SEAL] Seal of State, August 1, 1876.

### THE PACIFIC COAST BONANZA FIRM IN A NEW FIELD.

The New York *Evening Express*, of Oct. 12th, in its financial article says: "We are just entering upon the cotton exporting season and it has become thoroughly demonstrated that Great Britain will want a large amount of grain from this side, all of which will tend to increase the balance of trade in our favor during the current fiscal year. Again it is stated that one of the California silver millionaires [J. C. Flood] recently in this city has made a contract to supply the Governments of China and Japan with all the silver they require and draw on London for the same. This is an important item in our foreign commerce. Almost everywhere a confident feeling prevails as to the future, and it is not unreasonable to expect that the large business of the Fall in connection with the export demand for our products will lead to still greater prosperity next year, when many merchants look for a trade equal to if not larger than any in the history of the country."

### "SEVEN UP."

Seven is a prophetic number. Governor Hayes has seven letters in his signature (R. B. Hayes), the same as U. S. Grant. Hayes was nominated on the seventh ballot, and it was twenty-one days (three times seven) between the nomination and his letter of acceptance. It was the seventh plank (concerning public schools) in the Republican platform that called forth the greatest enthusiasm, and was read the second and third time. And on November 7th Hayes and Wheeler will be triumphantly elected to the high office for which they have been nominated. How is that for "seven up?"

SENATOR PATTERSON, of South Carolina, says that fully twenty thousand men, armed and mounted, are thoroughly patrolling the whole State, under command of Hamburg Butler, and that these forces are not only armed but completely drilled. The people express themselves openly as in favor of fight, and say that they don't care a——for the United States, the troops or the North, but that they are ready and anxious to clean out all the troops Grant can send. Murders are committed every day, of which not a whisper reaches the North. An old resident of Columbia told Patterson, last week, that he could not speak to him on the street if he met him, for the excitement and feeling were far worse than in '61 and the days of secession, and it was dangerous to even speak to a radical.

THE ELECTORAL VOTE.—The last Congress did not adopt joint rules for the government of the two bodies, and therefore there is no Nineteenth Rule, which gave to either House the right to reject the vote of any State. Under these circumstances the whole power over counting the Electoral vote is remitted absolutely to the hands of the President of the Senate, where it was lodged until the passage of the Nineteenth Rule in 1864.

WE have 6,900,000 farmers, 1,200,000 tradespeople, 2,700,000 mechanics, 2,600,000 professional men, 40,000 clergymen, 40,000 lawyers, 128,822 teachers, 62,000 doctors, 2,000 actors, 1,200 journalists, 1,000,000 laborers and 975,000 domestic servants.

MATHEMATICAL question: The country produces 2,295,000,000 shingles annually. How long will it take to shingle the country in, counting shingle beaches as already provided for?

NINE mills are now running on ore from the Bonanza mines. These represent 308 stamps, 171 pans, and have a crushing capacity for 1,078 tons daily.

OHIO ELECTION.—Hamilton county's official vote gives for the First District for Congress, Sayler, 14,144; Force, 13,484; Second District, Banning, 14,133; Matthews, 14,058.

THE September receipts of the Leopard Mining Company were $77,-42. Out of this sum a dividend of $25,000 will be paid on Monday.

SOME of the pans of the new Consolidated Virginia mill have been put in operation.

### CHURCHILL COUNTY.

Its Agricultural Resources—The Vast Deposit of Soda—The Borax Manufactured—Educational Progress—Other Items of Interest.

As a passenger on the overland East-bound train comes whizzing down the eastern slope of the Sierra Nevadas through the

PLEASANT, FRUITFUL VALLEY

Of the Truckee, glancing from the car window upon its green fields, forming an enviable contrast to the bare brown hills surrounding them, and glides by the majestic inland stream, unless he be well acquainted with the geographical condition of our State, he little doubts but that he has seen and rode through

THE GARDEN OF NEVADA,

But should he stop at Wadsworth and take the conveyance—humble though it may be—and ride twenty miles to Raytown, he would there find a stream whose waters are as crystalline and pure, whose banks are as verdant, whose foliage is as rampant, and even more so, than that of its sister river. Here then we come to that vast territory, covering an area only second to any county in Nevada, known as

CHURCHILL COUNTY.

Although the population of this county is comparatively small, yet it is in fact one of Nevada's brightest gems. Its mines of silver and gold may yet be undeveloped, but the hills with their treasure-laden ledges are here, and only waiting for the remunerative re-silver and the accompanying investment of capital in prospective to develop some of the

RICH MINES IN THE STATE.

Gold and silver bearing ledges are numerous that will assay and work from $70 to $300 per ton, and in the opinion of old and experienced miners, are well developed ledges. But Churchill county has some industries besides these mines of metal. Come among our industrious citizens and take a look at the

ALFALFA RANCHES;

As good as any in Nevada. Though not as large as some of the Truckee farms, their products bring higher prices and a more ready market. Alfalfa, as one of our leading productions, finds a ready market with the ponderously laden freight teams that drag their weary journey from Wadsworth to Belleville, Columbus, Belmont and Jefferson city. These towns lying South and East of here, receive all their

FARMING MACHINERY

And supplies for their mines and people over the C. P. R. R. via Wadsworth, and employ about thirty teams, drawing three and five wagons each, by from fourteen to twenty mules, consuming enormous amounts of hay and grain, thus affording a home market for all our products. There are many alfalfa ranches here that cut several hundred tons each and then find a market in feeding the Winter beeves for the Virginia and California markets. Among these ranches can be named as the heaviest Hill & Guner, Allen & son, D. W. Wightman, J. J. Cushman, Wright & Verplank and J. P. Brown, all of whom cut from 200 to 1000 tons the present season. Feeding upon our bottom lands surrounding the Upper and Lower Sinks of the Carson are nearly

10,000 HEAD OF CATTLE.

Churchill is in fact the cattle man's paradise. In all other parts of the grazing portion of our State a great per cent. of the herds are annually killed by exposure to nature's elements, the snow covering for weeks in some seasons their feeding ground. But in the valley of the Carson lake snow is seldom if ever found, and seen only as it lays in majestic beauty clothing in a mantle of purity the surrounding hills. The valley is now however somewhat overstocked, and these thousands of tons of hay, fed at a cost of $8 and $10 a ton, will this Winter be consumed by the herds in preparing them for the early Spring market.

But there is a lucrative industry promoted in this county of which no other county in the Union can boast; it is the manner of

MANUFACTURING SODA.

The country embraces a considerable portion of the Humboldt desert, a region which scientists believe was in some past age the head of a great inland sea. Through the process of solar evaporation the waters of this ocean have been removed to other climes and the solid matter has been left in beds, strata and deposits upon many parts of the plain. The desert for a depth of several feet is covered with a dry, fine sand which is ever shifting before the terrible winds which sweep down with fearful impetuosity from the cañons of the high Sierras. Consequently it is possible that here exists many hidden deposits of valuable minerals which may at some future day be brought to the sight of human vision. Twenty miles from the railroad, on the road leading from Wadsworth to Columbus, there are two small lakes of mineral water known as the "Nevada Soda Lakes." The larger of the two covers an area of about 400 acres. It rests in a depressed basin, the surface of the water being some fifty feet below the surrounding plain, the average depth of the whole body being 300 feet. It is indeed a wonderful and beautiful formation, well worthy of the study and admiration of all investigators of nature's handiwork. Standing upon its lofty bank about sunset and glancing over its smooth glassy surface covered with a variety of water fowls, reflecting from its tranquil bosom the rays of the setting sun, it is enough to stir in anyone's breast a feeling of awe and the deepest reverence for the Maker and Master of all this work of art. And to go down to the shady shore and peer into its deep briny waters, way down 50 or 100 feet below the surface where can be seen carcasses of horses and oxen preserved by the hand of nature,

PERFECTLY PETRIFIED

And embalmed by a chemical of her own combination. The shores exhibit a thick strata of sandstand resting upon a strata of black soda rock, the whole having the appearance of having been elevated by one of nature's grand upheavals. The waters are strongly impregnated with carbonate of soda, the whole having a density of 13 according to the hydrometer. The

SODA IS MANUFACTURED

By digging long vats along the southern beach deep enough to reach the bed of soda rock. The waters of the lake get their density by solar evaporation and by fresh water seeping through this bed of soda rock from its banks and thus dissolving and taking up the soda material. And so these vats are filled by boring through the bed of soda rock and in artesian flowing through the rock becomes impregnated with carbonate of soda, and by the dryness of the climate of the country solar evaporation is then all that is necessary for the manufacture of a good article of soda. This lake is owned by the American Soda Co and it is estimated that next season 10,000 tons of soda will be manufactured by that company. The Pacific Soda Company's lake is situated about 200 yards south of the American. It is located in a deep basin and fed by several soda springs. The bottom of this lake consists of a bed of pure carbonate of soda. The process of manufacture is by pumping the lake water into large earthern vats, and solar evaporation does the remainder of the work. The hotter the weather the more soda can be manufactured. Cold weather crystalizes the soda and it is then taken up and is ready for the market of the world. Besides these deposits of soda we have manufactures of

BORAX

As made in other portions of the State. To the east of this lake about 20 miles are located the extensive and celebrated fields of the California Bank's salt marsh. The deposit contains several hundred acres and is the

PUREST ARTICLE OF SALT

Known to the commercial world. In several parts of the county there have been found rich deposits of borate of lime—called by the miners "cotton balls." This mineral contains a high per cent. of boracic acid when combined with carbonate of soda produces a splendid article of borax. In a

LITERARY SENSE

Churchill county is sure to keep ahead of any other as sparcely a settled part of the State. No families of the same number and means in the State, I believe, would have undertaken so good an enterprise as that vested in the educational institute. Formerly there were three districts in the county with a patronage of about 20 scholars in *toto*, there are at present 57 scholars in the county, and about 50 will attend and board at the institute building for about ten months in each school year. The county furnishes a teacher and matron, while the parients pay a *pro rata* for the board of their children. A school house has been erected under the supervision of Co. Supt. Pike, the Principal and instructor of the school, at a cost of $3,500. A good bell is provided and everything is in "high-toned" shape.

MOUNTFORT.

### THE BULLION ROBBERY.

SAN FRANCISCO, Oct. 14.

In working up matters preliminary to the arrest of the men Thompson, Wilson and Langley, supposed to have been connected with the Idaho stage robbery of 1868, the detectives have discovered that for several years past the gang of which these men are evidently members has been engaged are in a series of bullion robberies, involving many of the mines on the Comstock. The method of their operations has not as yet been developed, but will be as soon as some of the operators now in custody have a chance to explain in the courts. The gang, which, which is a perpetuation of the famous Ingraham organization, first commenced business in the stage robbery line, but as bars of bullion took the place of the customary coin and gold dust, the robbers found it exceedingly difficult to carry off and divide their spoils. Besides being very heavy and cumbersome to carry off, the bars were always stamped with the brand of the mine, and they would tell the story at sight. To prevent this the bars were chopped up at the first opportunity, melted and run into bars or blocks. But the mere fact of the bullion being without a stamp was suspicious, and with the stamp of some particular mine the fact of the theft would be very easily followed up; so that the disposal of the second lot would be next to impossible without risk of being taken.

In following up Thompson, who professed to know all about the Idaho plant, both Bailey and Robertson, detectives, run across in the vicinity of Reno and Truckee, several places where bars of bullion had been chopped up and melted down into different shapes. The work had evidently been very clumsily done, and the places selected were generally some old mill or wood-choppers' shanty in the mountains. The bullion, as a rule, was taken from the mines and its loss generally attributed to the dishonesty of some of the employes. The Con. Virginia Mining Company is said to have been plundered to the amount of over $50,000 at one time and another. The robbers had two or three confederates in the work, and in the transportation of the bars from one point to another, one of them at a time would be shipped off and secreted. It is said that Robertson has got on the track of some of this Consolidated Virginia bullion, and made a contract with Flood & O'Brien whereby he receives one-half of the amount recovered. The method of getting rid of the bullion has been to work it up in small bars and send it to the Carson Mint for coinage in the shape of the product of small and unimportant mines. Robertson started yesterday morning with warrants for the arrest of several individuals known to be connected with this whole ale system of plunder.

The gang is said to be a very extensive and well organized one, with confederates in nearly every one of the large mining towns.

THAT abdominal snake has been heard from again. He is in the stomach of a Canadian Lieutenant this time. Next week he is due in Mississippi, and about the first prox should appear in Oregon. The regular Autumn wild man is announced in Tennessee and the sea-serpent has opened a branch office in Mozambique channel. Other curiosities will no doubt appear in due time.

THE CONGRESSIONAL COMMISSION.—Senator M[illegible] and other members of the Congressional Commission on Chinese [illegible] are expected to pass through Reno [illegible] en route [illegible]. The Commission is expected to convene on Wednesday [illegible] until it shall have [illegible].

HAGERMAN AT HOME.—Our readers will bear in mind the Democratic speaking at Dyer's Hall to-morrow, on which occasion J. C. Hagerman will discuss the issues of the day. Blennerhassett, the other speaker, is said to be an interesting talker. Seats will be reserved for ladies. A curiosity to hear Mr. Hagerman will attract many to the meeting.

SPEAKING.—The Republican County Central Committee advertise a postponed meeting at Markay Farr's lower hall next Saturday evening. W. M. Boardman and C. C. Powning will address the meeting, and the Reno band will enliven the occasion with music.

REMOVAL.—D. A. Bender & Co. will occupy the east half of Greff's brick building, as soon as completed, which will give the bank more comfortable quarters. The space now used by them in Chielovich's will be converted into saloon purposes.

POSTPONED.—There will be no meeting of the Hayes and Wheeler Club to-morrow evening. The next meeting will be held one week from to-morrow night. The postponement is probably out of courtesy to our fellow townsman, J. C. Hagerman.

AT WORK AGAIN.—S. Schwartz, the barber, who was burned out by the late fire, has resumed business, and can be found at the International Saloon. His old customers should remember him in his days of adversity.

PERSONAL.—U. S. Surveyor General Davis was in town yesterday, on business connected with his office. God never made a better man than the General. Trust he will be spared for many years to come.

UP to last evening there were 803 names on the Reno register. And still the end is not yet.

### PRISON CORRUPTION FRAUD.

**Carson against Reno—Moving To Retain The Prison at Carson—A "Hogging Game,"—Reno Ready For the Fight.**

We have received information that Carson is contributing money for the purpose of sending an Agent to the Eastern part of the State to electioneer with the men of the next Legislature, to prevent an appropriation to continue the work on the new State Prison at Reno, and retain the Carson prison as the State Prison. This Agent is about to start out upon his tour.

Reno asks naught but justice from the people of the State, and has no money with which to influence legislators. She claims that this is t proper place for the Prison. Here should it be located. Here it can be made self sustaining, and an institution of profit to the State, instead of a great burden. One Hundred Thousand Dollars have already been expended upon the Reno prison, and there has been more work done for the money than on any other public structure in the State. The State ought not to throw away this work and money, for the benefit of a few selfish Carsonites. Reno will submit her claims to the Legislature, and we believe that body will be composed of such honorable men as will see that her rights and the rights of the State are protected. We are ready for the fight, and will endeavor to prevent by fair means what Carson is trying to procure by foul. Let us try and send our best men to the Legislature.

SCIENCE OF RELIGION.—Among modern Literature that find our country at the present day it is hard to find books of real merit, but when we see them we appreciate them the more. Among the latter of [illegible] we must include Dr. Morris' great work bearing the above title, written in the most liberal style, giving due credit to the researches of scientists, such as Spencer, Agassiz, Huxley, Tyndall and others, though differing [illegible] from them in their religious ideas. It is also, ther a finely gotten up work of 700 pages and 18 illustrations [illegible] A. R[illegible]ill is in town soliciting orders for the [illegible].

LYRICAL.—A. R[illegible]dewill, traveling agent of A. L. Bancroft & Co., San Francisco, is in Reno, soliciting orders for pianos, organs, books, etc. Bosco's Kribe [illegible], Weber pianos, Prince & Co's organs and other cheaper instruments at prices and terms to suit everybody. Every instrument warranted for five years and are sold on the easy installment plan.

OLD FOLKS' DANCE.—The Old Folks' Dance at Dyer's Hall Tuesday evening promises to be a magnificent party. No unmarried lady or gentleman will be admitted, which adds to the novelty of the affair. There will be excellent music, a gorgeous lunch, and a jolly time generally, from what we hear.

WRESTLING MATCH.—The Opera House was crowded last night to see Homer Lane and H. H. Mason wrestle, collar and elbow style, for $100 a side. Mason won the first fall, and Lane the next two, and match. The sport was keenly enjoyed by the audience.

CHURCHILL COUNTY.—We have some correspondence in another place from this section, so near to us and yet of which we have but slight knowledge. Considerable information will be gained from a perusal of the communication.

EMMA MINE.—A rich strike has been made in the shaft of the Emma mine at the depth of 150 feet. The ledge is five feet thick, well developed and of fine appearance. Fifty tons of it is now on the dump awaiting crushing.

POLITICAL PRINTING.—Be it remembered that all political printing and advertising must be paid for in advance. Under no consideration shall the JOURNAL deviate from this rule.

LOST.—Attention is called in another place to the loss of a due bill, payment of which has been stopped.

ALPS sold in the Board Friday at 50c per share, or the amount of the assessment just paid. Those who parted with the stock at that price gained nothing by paying the assessment. A few months ago the stock was selling at the rate of $120,000 for the mine and other property, against $15,000 now; and yet the net assets, apart from the mine, are valued at over $100,000.

### Religious Services.

BAPTIST services will be held at the Baptist Church this Sabbath morning and evening at 11 A. M. and 7:30 P. M., Rev. C. L. Fisher pastor.

SERVICES at the Methodist Church to-day at 11 A. M. and 7 P. M. Funeral services at 2 P. M. Rev. T. S. Uren officiating.

In consequence of the funeral of Dr. Grover taking place at the school hour to-day, there will be no M. E. Sunday School.

Official meeting of the Stewards of the Methodist Church this morning immediately after morning service.

REV. J. J. POWELL will preach at the Congregational Church, at 11 o'clock this morning, and in the evening at 7½ o'clock. The Sunday School meets immediately after morning service. All are invited.

At the Episcopal Church there will be divine service at 11 A. M. and 7½ P. M. to-day Bishop Whitaker officiating. Sunday school immediately after morning service. All are cordially invited to attend.

### Notice.

SAN FRANCISCO, Oct. 3, 1876.

ED. NEVADA STATE JOURNAL:—I see by an extract from your paper, that there is a man in your town representing himself as a Agent from a Boot and Shoe factory on Sansome street, San Francisco, with goods for sale made by white labor, and as ours is the only factory on Sansome street which employ all white labor, we disclaim having anything to do with any person selling goods in your town, except in a legitimate way. We are not overcrowded with goods, or pushed for money, as we make nothing but a desirable and saleable article. Our goods can be seen at Mr. John Sunderland's.

D. McCARTHY,
Manager of United Workingmen's Boot and Shoe Co.

CLOTHES CLEANING AND DYEING.—Mr. Felix McHugh having established a clothes cleaning and dyeing business at the Pollard House, is now ready to clean all ladies' and gentlemen's clothing, blankets, gloves, all kinds of laces, and curtains so that they will look as well as new. All kinds of dyeing, done with neatness and dispatch. An experience of thirteen years in the East guarantees him to ensure satisfaction. Prices reasonable. Orders left at the dye works will be called for and returned. Give him a trial is all he asks.

WESTERN STAR SALOON.—B. Pendola, the proprietor of this saloon which is situated on the west side of Center street, keeps constantly on hand the choicest beverages of all kinds and the best brands of cigars. Among his choice drinks are Pendola's favorite, punch [illegible], cobbler, Pendola's punches and the renowned ambrosial cocktails, all of which are daily dispensed at the Western Star. Every attention is paid to patrons. Order and civility is the rule at this saloon.

FALL AND WINTER OPENING.—The latest novelties in Fall and Winter fashions will be opened out at Mrs. Julia J. Prescott's fashionable establishment, next door to the Postoffice, Thursday, Sept. 7th, where all the ladies of Reno and vicinity are invited to call. In addition to the above we are requested to inform the ladies that Mrs. Prescott is prepared to sell her elegant and newly selected stock of millinery at marvelously low prices, and all she asks is for the ladies to call and convince themselves.

PERSONAL, VERY.—Will the young lady who smiled at the young Spaniard on the front seat, right hand side, at the opera last evening, please send address to

DRY GOODS! DRY GOODS!—Grey & Isaacs, the rulers and regulators of prices of the dry goods trade in Reno, are doing an immense business in their new store on Virginia street, next door to Beck & Co., and opposite their old stand. This wide awake young firm has revolutionized the dry goods trade in Reno, and intend maintaining their great popularity, if low prices and fair dealing will accomplish it. They have extraordinary facilities for purchasing goods, and are daily in receipt of the latest novelties known to the European and American trade. Ladies will save money by patronizing this young house, for not only have they convinced the entire population of Reno that they have sold goods lower than the same could be bought in San Francisco, but are determined to still continue to run in the same channel. Notwithstanding the enormous advance in the price of silks they still continue to sell them at 30 per cent. below old prices. Special reduction in carpets and dress goods. Three-ply carpet, $1. Two-ply carpet, 62½ cents. Hemp carpet, 25c. Camel's Hair Cloths for ladies suitings, at 25 and 45 cents, original price 62½ cents and $1. All the latest tints in Cashmere, Poplins, Brocaded Pongees and Camelites, with silks and fringes to match. Blankets, Shawls, Flannels, House Furnishing Goods, etc., below San Francisco prices. Ladies, just step into the "Centennial" and feast your eyes on the magnificent stock of goods, as your true friends, Grey & Isaacs will always be pleased to show you their complete assortment of goods, whether you want to buy or not. *

THE agent of the San Francisco Boot and Shoe Manufacturing Company, of Sansome street, has received orders from his employers to clear out their extensive stock of ladies', children's, men's and boy's boots and shoes regardless of cost. To accomplish a speedy and entire clearing sale, he will sell for three days only, all the goods he has on hand at prices never heard of before. This is a rare chance for families to lay in a stock of boots and shoes, as they will be sold at an enormous sacrifice. Come at once and secure Bargains. Remember three days only. *

Resolutions and Platform of the Republican National Convention.

FIRST—The United States of America is a nation and not a league, and by the combined workings of National and State governments under their respective Constitutions the rights of every citizen are secured at home and protected abroad and the common welfare promoted

SECOND—The Republican party has preserved these governments to the hundredth anniversary of the nation's birth, and they are now embodiments of the great truths spoken at its cradle—that all men are created equal, that they are endowed by their Creator with certain inalienable rights, among which are life, liberty and the pursuit of happiness, that for the attainment of these ends governments have been instituted among men, deriving their just powers from the consent of the governed, and until the equal rights of the fully obeyed or attended are vain boasts and a fraud, the work of the Republican party is incomplete

THIRD—The permanent pacification of the Southern section of the Union, and the complete protection of its citizens in the free enjoyment of all their rights are duties to which the Republican party at this success pledged. The power to provide for the enforcement of the principles embodied in the recent constitutional amendment is vested by these amendments in the Congress of the United States—and all declare it to be the solemn obligation of the Legislative and Executive Departments of the Government to put into immediate and vigorous exercise all the constitutional powers for removing any just cause of discontent on the part of any class and, for securing to every American citizen complete liberty and exact equality in the exercise of civil, political and public rights. For the second we can justly a demand a Congress and a Chief Executive whose courage and fidelity to those duties shall not falter until these results are placed beyond dispute or recall. In the first Act of Congress signed by President Grant, the National Government sought to remove any doubts of its duty to discharge all just obligations to public creditors and solemnly pledged its faith to make a provision at the earliest possible period for the redemption of United States notes in coin. Commercial prosperity, public morals and the national credit now demand that this promise be fulfilled by appropriations and efforts proportioned to specie payments. Under the Constitution the President and heads of departments are to make nominations for office the Senate is to advise and consent to the appointments, and the House of Representatives is to accuse and prosecute faithless officers. The best interests of the public service demand that these distinctions shall be respected, and that Senators and Representatives who may be judges and accusers, should not dictate appointments to others. The invariable rule for appointments should have reference to the fitness, honesty and capacity of the appointees, giving to the party in power those places in which the harmony and vigor of the Administration requires its policy to be represented, but recognizing the right to fill by persons selected with sole reference to the efficiency of public service and the right of all citizens to share in the honor of rendering faithful service to their country

SIXTH—We rejoice at the quickened consciousness of the people concerning political affairs and will hold all public officers to a rigid responsibility, and engage that the prosecution and punishment of all who betray official trusts shall be speedy, thorough and unsparing.

SEVENTH—The public school system of the several States is the bulwark of the American nation and the Republic and, with a view to its security and permanence, we recommend an amendment to the Constitution of the United States forbidding the application of any public funds or property for the benefit of any schools or institutions under sectarian control.

EIGHTH—The revenue necessary for current expenditures and the obligation of the public debt must be largely derived from duties on importations, which, so far as possible, should be adjusted to promote the interest of American labor and advance the prosperity of the whole country.

NINTH—We reaffirm our opposition to further grants of the public lands to corporations and monopolies, and demand that the national domain be devoted to free homes for the people.

TENTH—It is the imperative duty of the Government so to modify the existing treaties with European Governments that the same protection shall be afforded to the naturalized American citizen that is given to the native-born citizen, that all necessary laws should be passed to protect immigrants, in the absence of power in the States for that purpose.

ELEVENTH—It is the immediate duty of Congress to fully investigate the effect of the immigration and importation of Mongolians upon the moral and material interests of the country.

TWELFTH—The Republican party recognizes, with approval, the substantial advance recently made toward the establishment of equal rights for women, by the many important amendments effected by Republican Legislatures in the laws which concern the personal and property relations of wives, mothers and widows, and by the appointment and election of women to the superintendency of institutions of education, charity and other public trusts. The honest demands of this class of citizens for additional rights and privileges and immunities should be treated with respectful consideration.

THIRTEENTH—The Constitution confers upon Congress sovereign power over the Territories of the United States for their government, and in the exercise of this power it is the right and the duty of Congress to prohibit and extirpate, in the Territories, that relic of barbarism, polygamy, and we demand such legislation as shall secure this end and the supremacy of American institutions in all our Territories.

FOURTEENTH—The pledges which the nation has given to our soldiers and sailors must be fulfilled. This great people will always hold those who perilled their lives for their country's preservation in the kindest remembrance.

FIFTEENTH—We sincerely deprecate all sectional feeling and tendencies, and we, therefore note with deep solicitude that the Democratic party counts, as its chief hopes of success, upon the electoral vote of a united South, secured through the efforts of those who were recently arrayed against the nation, and we invoke the earnest attention of the country to the grave truth that the successes thus achieved would reopen sectional strife and imperil the national honor and human rights.

SIXTEENTH—We charge the Democratic party with being the same in character and spirit as when it sympathized with treason, with making its control of the House of Representatives the triumph and the opportunity of the nation's recent foes, with reasserting and applauding at the National Capitol the sentiments of unrepentant rebellion, with sending Union soldiers to the wall and promoting Confederate soldiers to the front, with deliberately proposing to repudiate the plighted faith of the government; with being equally false and imbecile in overshadowing the ends of justice by its partisan mismanagement and obstruction of investigation, with proving itself through the period of its ascendancy in the Lower House of Congress, utterly incompetent to administer the Government, and we warn the country against trusting party thus alike unworthy, recreant and incapable

SEVENTEENTH—The National Administration merits commendation for its honorable work in the management of domestic and foreign affairs and President Grant deserves the continued and hearty gratitude of the American people for his patriotism and his immense service in war and peace
